The Embassy has been approached by Wr. Agus Yaman, Chief of the Consular Bureau of the Foreign Office, for assistance in compiling a bibliography concerning United States laws and regulations affecting consular conventions. Fr. Yaman has indicated that he has received from the Indonesian Pubes yin Washington a copy of the proposed consular treaty with the 201 submitted by the U. S. Government. He has stated that the Indonesian Jovernment has never before signed a consular convention and that he would like to assemble in the Foreign Office a ligrary of refer nec material for the law and regulations on consular conventions which the Indonesian government will eventually have to adopt and to which he boom to make the maximum contribution while on his present job.

A check of the post library has uncovered only two works of possible interest to him. One is the "nited Nations volume "laws and Regulations Regarding Diplomatic and consular Privileges and Irmanities," a copy of which he already has. The other is that volume in the brate lepartment series "Treaties and other International acts of the U.S. of America" edited by Hanter Hiller which contains the Patherlands-J.S. consular treaty of 1355.

The malesty would like to support ar. Yaman in his project but has exhausted available local resources. It would therefore be appreciated if the legarizent could arrange for the concilation of an amoutated bibliography on the subject of U. S. consular conventions including, if one is available, a volume containing the texts of all current consular conventions to which the U. S. is a party. The names of publishers should be included since for. Yaman plants to buy the most important books in the field. All the assistance that is feasible will be offered to him through the USIS book presentation program.

This copy must be returned to RM/R central files with notation of action taken.
